The workshop will focus on ways to inform international students about the Australian legal system, and discuss legal issues which typically impact on students, with a view to provide participants with skills and knowledge to support the prevention of legal problems for the international students they work with.

We will profile some of our legal rights education materials and in particular those projects designed with the international student community employing community development principles. These include:

- International women students and safety
- FAIR GO: A Guide to the Law in Australia for International Students
- Nuthin' to See Here :Your rights and responsibilities with bouncers in night venues
- Your Work Your Rights
- Human Rights and Discrimination Law in Australia

The workshop will be enlivening and participatory, inviting participants to share experiences, knowledge and skills in a supportive environment, providing ideas and materials to take away and develop for application to different university community's.
